

— OUR MISSION STATEMENT —

Our mission, as a quality company dedicated to learning, is to continually improve our customers with a variety of options in the creation and purchase of a quality product, a product of value resulting from an interaction between the customer and our caring and knowledgeable staff.

In fulfilling our mission we shall strive to always be an organization that continues to be worthy and deserving of the respect of the community while giving back to it. We will continue to be an open organization that respects the contributions of our staff by providing an open working environment that is ethical, attentive, and values their learning and education. We will provide a workplace of which one is proud to be a part. We believe, by being faithful to the principles contained within our mission statement, our organization will enjoy the benefits of longevity and profitability.

We will strive to always communicate by listening carefully to our customers and to assist them as they create a kitchen that reflects the beauty they wish to secure in the most central room of their home. Our mission is to provide a kitchen that captures the ideal of the beloved kitchen table, the central gathering place for the home, where all can feel comfortable and at ease while sharing life's most important stories.
